

Corporate Teams

Teams are a link between the National Multiple Sclerosis Society and corporate America and the community in a partnership that supports our mission of achieving a world free of MS. Uniting businesses for a common cause through team participation creates positive community visibility. It also provides employees with a fun social outing at little or no cost.

There are many rewarding advantages to starting a Walk MS Team:

- Employees benefit through teamwork and team building.
- Corporate pride and employee retention increases.
- Community involvement builds strong corporate images.
- Participation creates a health-conscious work environment.
- Training and fund raising are easier as a team.

When you participate as a corporate team in Walk MS, your company name and logo are seen by more than 10,000 walkers and volunteers and hundreds of supporters, as well as newspaper, television and radio media outlets from across Southern California.. Your corporate participation also displays your company's commitment to the MS community of over 400,000 people nationwide.
